

The Electoral College

Name: _____

Based on the most current census, write in how many electoral votes each state has been awarded. If applicable use your legend to color in the states based on election day results.

Before watching the video explain what you already know about the procedure of electing the President and Vice President of the United States.

Watch the TED ED video: ["Does Your Vote Count? The Electoral College"](#) explained by Christina Greer, to answer the following questions.

- Circle the historical document that states: How many electors each state is entitled to have.
Voting Rights Act **Constitution** **Declaration of Independence** **Federalist Papers**
- (_____ Representatives) + (_____ Senators) + (_____ Electors) = _____ **total electors since 1964**
- Each presidential candidate is trying to surpass at least _____ electoral votes first (at least 1/2 of the total).
- A state's electoral votes are based on the _____ size from the most recent census.
- True** or **False**? A candidate can lose the election if they received the most votes. ("Popular vote")
- A _____ is a state that allows voters to vote between voting republican, democratic, or for their party each year.
- The magic number to win a presidential election is _____!

After watching the video explain something new that you learned.
